Building Better Chain

NH 78

The toughest NH 78 Chain on the market.
Superior wear resistance.

- ✓ 100% inspection of links for voids and cracks.
- ✓ Better materials and regular in-house testing of all materials.

NH 78

NH 78 is a heavy duty 2.609" (66.3 mm) pitch straight running chain designed for bi-directional travel. It is used as a power transmission chain in wet environments and as a non marking conveying chain.

Improvements in the design and material give our NH 78 chains the best tensile strength and wear rate available. Superior wear resistance and toughness allow it to replace stainless steel chain in many applications.

Applications

- Water Treatment
- Rectangular Clarifiers
- Lumber Sorting Tables
- Pallet Conveying
- Plywood and Gypsum Board
- Ice Packaging

Specifications

| Physical Properties | Metric | Inch |
|---------------------------|---|-------------|
| Width | 74.9 mm | 2.95 in. |
| Height | 28.4 mm | 1.12 in. |
| Pitch | 66.3 mm | 2.609 in. |
| Weight | 2.10 kg/m | 1.41 lb/ft. |
| Working Tensile Strength | 8,000 N | 1,800 lbf |
| Tensile Strength at Break | 22,200 N | 5,000 lbf |
| Pin Material | Stainless Steel or Zinc plated Carbon Steel | |
| Colors | Tan, White, Black, High Visibility Orange | |
| Attachments | K1, K2, Extended Pins | |
| Packaging | Any Length | |
