

Multiflex Chain 1700

Multiflex 1700 is a heavy duty 1.97" (50.00 mm) pitch radius and straight running flexible plastic conveyor chain. Applications include alpine systems (inline accumulation) and case conveyors.

Our chains are made from Trilon 1000 a high molecular weight Acetal with wear resistant additives that provide superior wear resistance and toughness allowing it to replace stainless steel chain in many applications.

Specifications

Physical Properties	Metric	Inch
Width	55.2 mm	2.17 in.
Weight	1.37 kg/m	0.92 lb/ft.
Nominal Tensile Strength	4,000 N	900 lbf
Pin Material	Stainless Steel	
Colors	White, Tan, High Visibility Orange	
Attachments	Tabbed and Heavy Duty versions are available	

Packaging	Any Length
