

Slat Top 882 Bevel

Slat Top 882 Bevel is a radius or straight running plastic chain with a stainless steel pin. Top plate thickness is 5.0 mm (0.20"). The 882 chain is considerably stronger than 880 chain and is available in widths up to 12". It is easily removable for quick cleaning in sanitary applications and the same thickness as 821 chain for side transfer applications. Applications include food products, containers and bottling lines.

Our chains are made from Trilon 1000 a high molecular weight Acetal with wear resistant additives that provide superior wear resistance and toughness allowing it to replace stainless steel chain in many applications.

Specifications

Physical Properties	Metric	Inch
Width	114.3 mm	4.50 in.
	190.5 mm	7.50 in.
	254.0 mm	10.00 in.
	304.8 mm	12.00 in.
Nominal Tensile Strength	4,000 N	900 lbf
Pin Material	Stainless Steel	
Colors	Tan is standard, Blue and White are custom order	
Packaging	10 ft. standard, any Length available
