

# BRANDT

## MANUFACTURING

## STATIC SHAFT BEARINGS

### Features:

- ✓ Static Shaft Bearings are installed over fixed shafts eliminating the need for wall bearings or live shafts.
- ✓ UHMW-PE bearing for long life even in high grit applications.
- ✓ Heavy Duty Fiber Glass Reinforced Nylon collars interlock with the bearing for durability and better alignment than hose clamps or band clamps.
- ✓ Split Design is easy to install
- ✓ Can be used to rehabilitate tanks with worn-out wall bearings
- ✓ In stock, most sizes can ship the same day
- ✓ 100% tested, Made in the USA.
